

Self-laminating labels for cable marking

Precise cable marking

- Precise marking due to a punch mark
- Self-laminating, soft and supple PVC foil
- Thermal transfer print, permanently readable
- Compatible with cab R71 resin ribbon
- One-track composition for flexible printing
- Available at short notice:
 - 45 x 19.05 mm for cables up to 4 mm Ø
 - and 95 x 25.40 mm for cables up to 8 mm Ø
- Further formats and colors on request

The PVC material perfectly adapts to many surfaces. Along with our R71 ribbon you get durable and optimally readable cable marking.

For further information please contact our consultant engineers or our *labels department*. Or visit our website at www.cab.de/en. Email to etiketten@cab.de.
