GESELLSCHAFT FÜR COMPUTER- UND AUTOMATIONS-BAUSTEINE MBH & CO KG

### YOUR DATA IS SAFE WITH US

Trust is the foundation of our collaboration. As your partner for product identification solutions, we take the protection of your data and information very seriously.

Whether project data, technical specifications, or personal information – we handle all data entrusted to us with the utmost care.

### WHAT WE DO FOR YOUR SECURITY

Your information is in good hands with us. We protect your data through:

- When planning and implementing our business processes, we ensure the availability, integrity, and confidentiality of data
- Technical and organizational security measures tailored to the protection requirements of your data
- Regular review and continuous development of our security standards
- Trained and sensitized employees who are aware of their responsibility
- Clear responsibilities with a dedicated IT Security Officer

### A LIVED SECURITY CULTURE

Information security starts with management and is actively practiced by all employees. We integrate security aspects from the planning phase of new projects, so your data is protected from the very beginning.

### TRANSPARENCY AND CONTINUOUS IMPROVEMENT

We continuously work to improve our security level and communicate transparently with you. If you have any questions regarding information security, we are always happy to assist you.

Yours,

IT Security Officer
