

January 29, 2018

cab and REACH - the Regulation of the European Parliament and Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals.

According to The Regulation of the European Parliament and Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (EC No. 1907/2006) cab as an industrial manufacturer/supplier is counted among the downstream users (DU) and sells only articles which are subject to the REACH regulation.

cab is constantly in close contact with its suppliers in order to be informed about their latest REACH-status.

According to cab's current state of knowledge cab's products do not contain Substances of Very High Concern (SVHC) in a concentration of more than 0,1% weight by weight (w/w) as listed in the Candidate List dated 7th of July 2017.

The Candidate List of the ECHA dated 15th of January 2018 was expanded to include some new substances. In order to clear whether such substances are contained in our products we took the according action. We will update this statement after feedback of our suppliers.
