

## Assembly Instructions

### Product Sensor HERMES Q / Hermes+

Edition: 08/2019 · Part No. 9009056

### Contents of Delivery

5964300 Product Sensor 25 pin

- 1 - Reflective sensor
- 2 - Reflector

### Function

The Product Sensor is an optional unit for HERMES Q and Hermes+ printers.

For automatic labelling with applicator an external start signal is needed. Such a signal can be provided by the Product Sensor.

The reflective sensor (1) sends out a light beam which will be mirrored by the reflector (2). A labelling cycle will be started when the product to be labeled interrupts the light beam.

The length of the connecting cable amounts to 2 m.

### Mounting

#### Attention!

► Switch off the printer system before mounting the sensor.

- Connect the 25-pin plug of the sensor (1) to the I/O interface (3) of the printer.
- Mount the Product Sensor. Arrange the reflective sensor (1) and the reflector (2) in such a way that the product to be labeled interrupts the light beam.
- The distance reflective sensor (1) - reflector (2) may amount to 2 m maximally.
- Switch on the printer.
- **HERMES Q:** Set parameter *Setup > Interfaces > I/O > START Mode to Edge.*
- **Hermes+:** Set parameter *Setup > Machine param. > I/O signals > Mode Start to Edge.*
- Check the alignment of reflector (2) and reflective sensor (1). If the alignment is correct a LED lights up at the back of the reflective sensor.
