

Assembly Instructions

External Operation Panel (Part No. 6010186)

Edition: 07/2019 · Part No. 9003381

Intended Use

The external operation panel is intended for the wired remote control of the SQUIX, MACH 4S, EOS2/EOS5 and HERMES Q series printers.

Function

Attention!

For using the external operation panel the printer firmware version 5.25 or higher is needed.

The external operation panel has the same functionality as the internal control panel of the printer. Users are free to choose whether to operate the printer on the external panel or on the one integrated in the device. The contents of both displays are identical and can be displayed in portrait or landscape mode. The external operation panel has a USB host interface (1) to connect an USB memory stick or the service key.

Attention!

To access the USB memory stick on the external operation panel no other USB memory stick may be connected to the printer.

Mounting

For the connection the following cables are provided:

- 5907718 Connecting cable, length 1,8 m
- 5907730 Connecting cable, length 3 m
- 5907750 Connecting cable, length 5 m

Attention!

The use of other cables can cause lost of function.

- ▶ Connect a suitable cable (6) to the USB device interface (4) of the external operation panel and to one of the USB host interfaces (5) on the rear side of the printer. The cable may be connected during operation. The external panel will be detected by the printer and can be used after a few seconds.
