

# CSQ 400 cutter

for all basic SQUIX 4 printers

Labels made of paper, self-adhesive labels, cardboard, textile or plastic materials as well as shrink tubes may be cut.

State of delivery is fully assembled to a printer or as an accessory.

By accessing the number of cuts stored in the memory, wear can be controlled. More than a million cuts are possible with typical application.

Technical data	Cutter	CSQ 401		CSQ 402	
To be used with		<b>SQUIX 4.3, SQUIX 4.3M, SQUIX 4, SQUIX 4M</b>			
Material Width	up to mm	120	114	120	114
Weight of cardboard up to g/m <sup>2</sup>		200		300	
Thickness	up to mm	1.1		1.5	
Cutting length	from mm	10		10	
Gap height of material	up to mm	2.5		2.5	
Cutting speed	approx. cuts/min	120		60	
Tray to collect material lengths up to mm		100		100	
Monitoring		final cutter position not been reached, cutter pivoted, cover removed from cutter			

The CSQ 402 type allows doubled cutting force at half speed. Thick materials of widths starting from 60 mm may be cut.

By pivoting CSQ 400, materials can be removed. The cutters are easy to access in case of cleaning and easy to replace.
