

**Label software cablabel R2<sup>+</sup>**  
The professional way to create labels.

# cablabel R2<sup>+</sup>

## The label creating software especially for cab printers

Perfect labels need to have optimized text fonts. cab offers a large number of bitmap and vector fonts. Height and width of the font can be scaled and the object can be positioned and arranged.

Additional true type fonts can be downloaded to the memory card.  
Most of the country specific codepages are supported.

Powerful functions enable the creation and printing of even a complex label within minutes.  
Take advantage of using the multiple possibilities of cablabel R2<sup>+</sup>. Whether simple texts, barcodes and graphics - label software cablabel R2<sup>+</sup> is most flexible - and all this in 24 languages.

MDI (Multiple Document Interface) helps to open and handle several labels at the same time. Objects may be copied, moved and inserted into another label.

cablabel R2<sup>+</sup> has its own drivers which individually respond to all different functions of the cab printers. This most effective communication between software and printer enables to achieve the best possible results.

<b>Cablabel R2<sup>+</sup> Version 9.00.01</b>
